Bost

BOST offers generous, elegant chairs with high backs and an optional height-adjustable headrest, as well as a synchronized, multi-position locking mechanism with non-return safety system and individual tension adjustment.

With or without a headrest,
upholstered in fabric or in
leather, Bost is always sure to
impress, inspiring respect and
discretion in equal measure .

Wi-max

Wi-max T

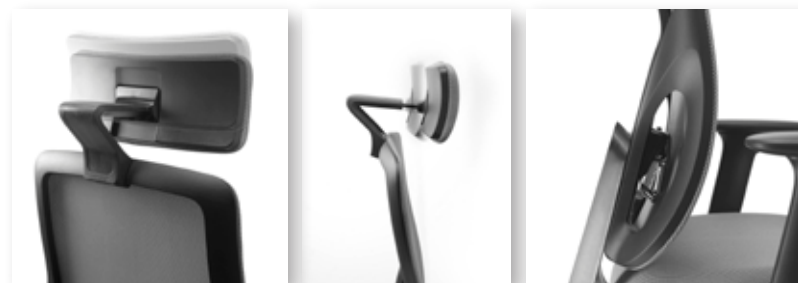

The executive version of our Wi-MAX range embodies streamlined, elegant comfort. This unique collection, **available in a black , is sure to look just** right whatever the decor. Beautifully stitched seams adorn the leather front of the backrest, while the back boasts **a matching micro-perforated finish. This version also has leather upholstered armpads on its fixed armrests.**

Eman

Comfortable

Optimum comfort and high resistance even for tall and tall people. High or medium backrest with two upholstered pads for optimal and customised support. Low part for lumbar zone produced with lightly doubled thickness and height-adjustable support.

Elite Chair

The Elite Chair is a comfortable and versatile seating option designed for various settings. Its construction features a shell made of plywood, providing a sturdy and durable foundation for the chair. The backrest and seat of the chair are built on this chassis.

To enhance comfort, the chair is upholstered with a 5cm layer of polyurethane sponge. This sponge has a density of 35 Kg/m³, ensuring a supportive and cushioned sitting experience. The upholstery covers the entire chair, including the backrest and seat, providing a soft and pleasant surface to sit on.

Honour

Finishing: The Honour Chair is covered with PU leather upholstery, which offers several benefits. It is resistant to dirt, dust, and water, making it easy to clean and maintain. The PU leather also adds a touch of sophistication and elegance to the chair's appearance.

High Wingy

a captivating piece of furniture that seamlessly blends elegance with modern design. Crafted with precision and inspired by the graceful lines of bird wings, this chair is a true masterpiece that transforms any space into a haven of sophistication

Boat

Retro

Jet

The concept of the Jet High Back Chair is a harmonious blend of functionality, modern design, and Egyptian craftsmanship.

Premium Finishing:

The final touch is the luxurious PU leather covering, not only providing a sophisticated appearance but also practical benefits. The anti-dirt, anti-dust, and water-resistant properties of the leather ensure easy maintenance and longevity, making the chair suitable for a variety of environments.

High Clever

perfectly balanced design, combining natural elegance with a streamlined, reassuring shape, cannot fail to please.

Designed for versatility, the chair features adjustable elements that cater to individual preferences. The seat height, tilt mechanism, and armrests can be customized to ensure an ergonomic and comfortable seating experience, enhancing productivity during long work hours.

Employee

Login

A chair's function is not just to provide a place to sit; it is to provide a medium for self-expression. Chairs are about status, for example. Or signaling something about oneself. That's why the words chair, seat and bench have found themselves used to describe high status professions.

Wingy

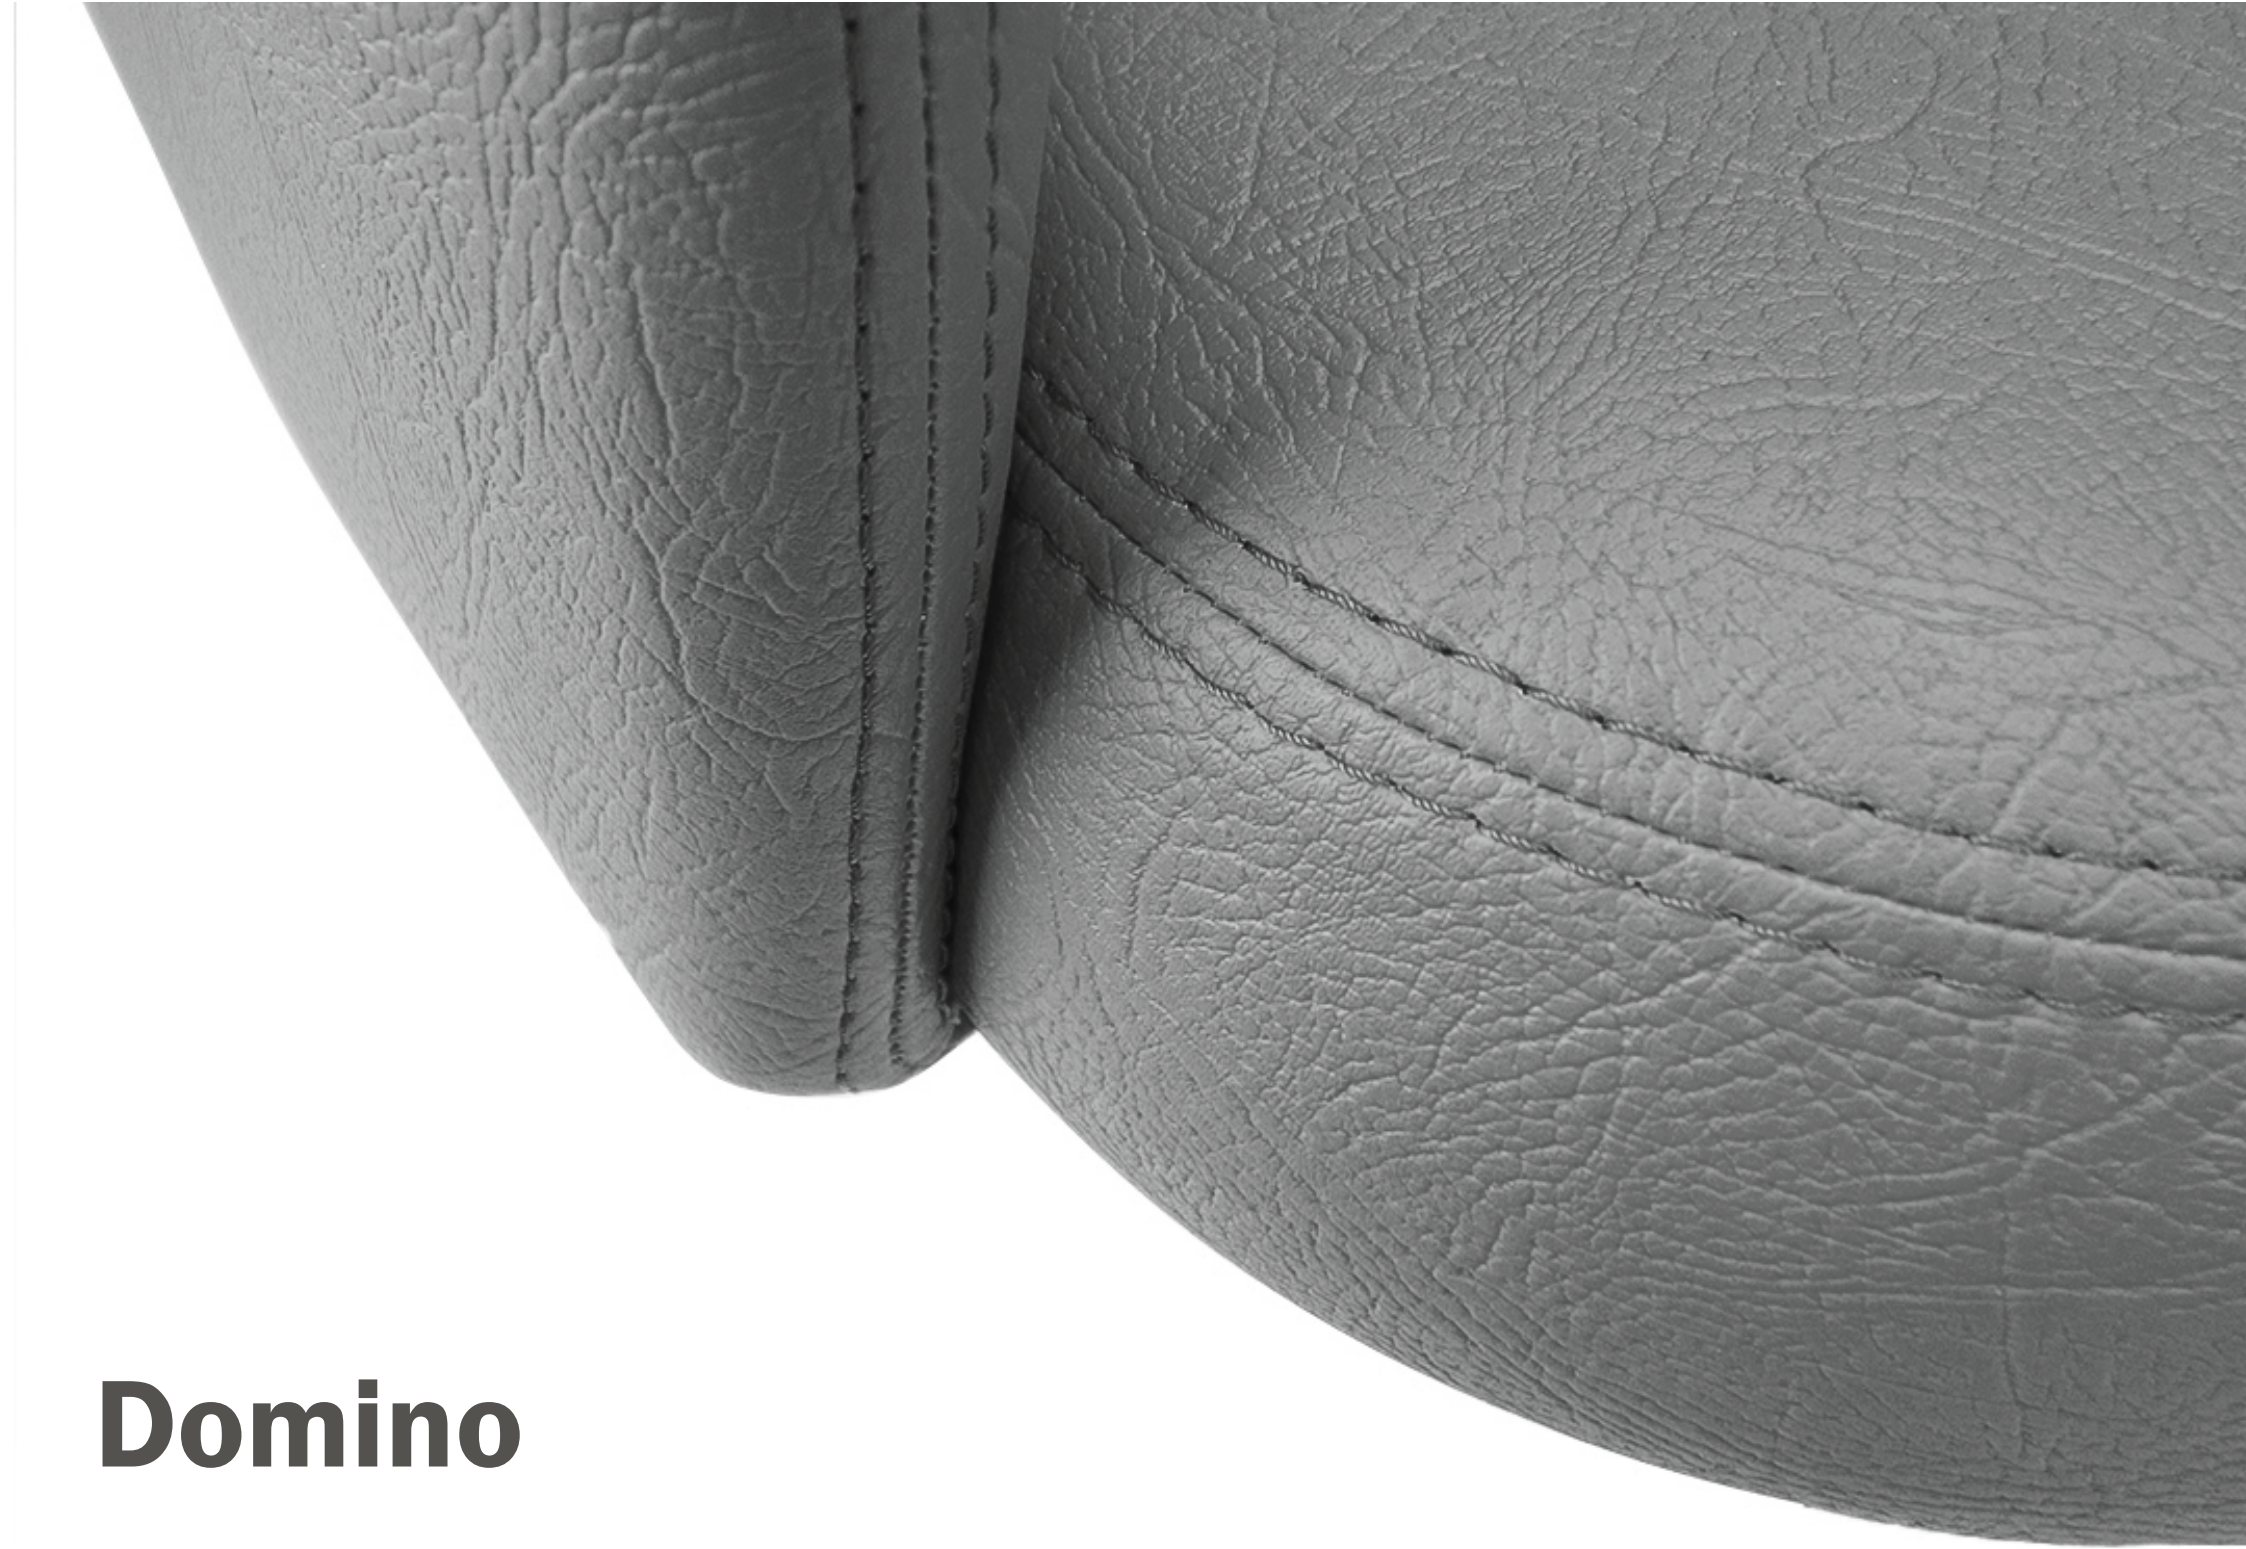

The New Wingy Movable Chair combines comfort, flexibility, and contemporary design, making it suitable for various settings such as offices, conference rooms, or even home environments.

Trend

The Trend Fixed Chair can be finished with either PU leather or fabric upholstery. Both options are resistant to dirt, dust, and water, making them easy to clean and maintain.

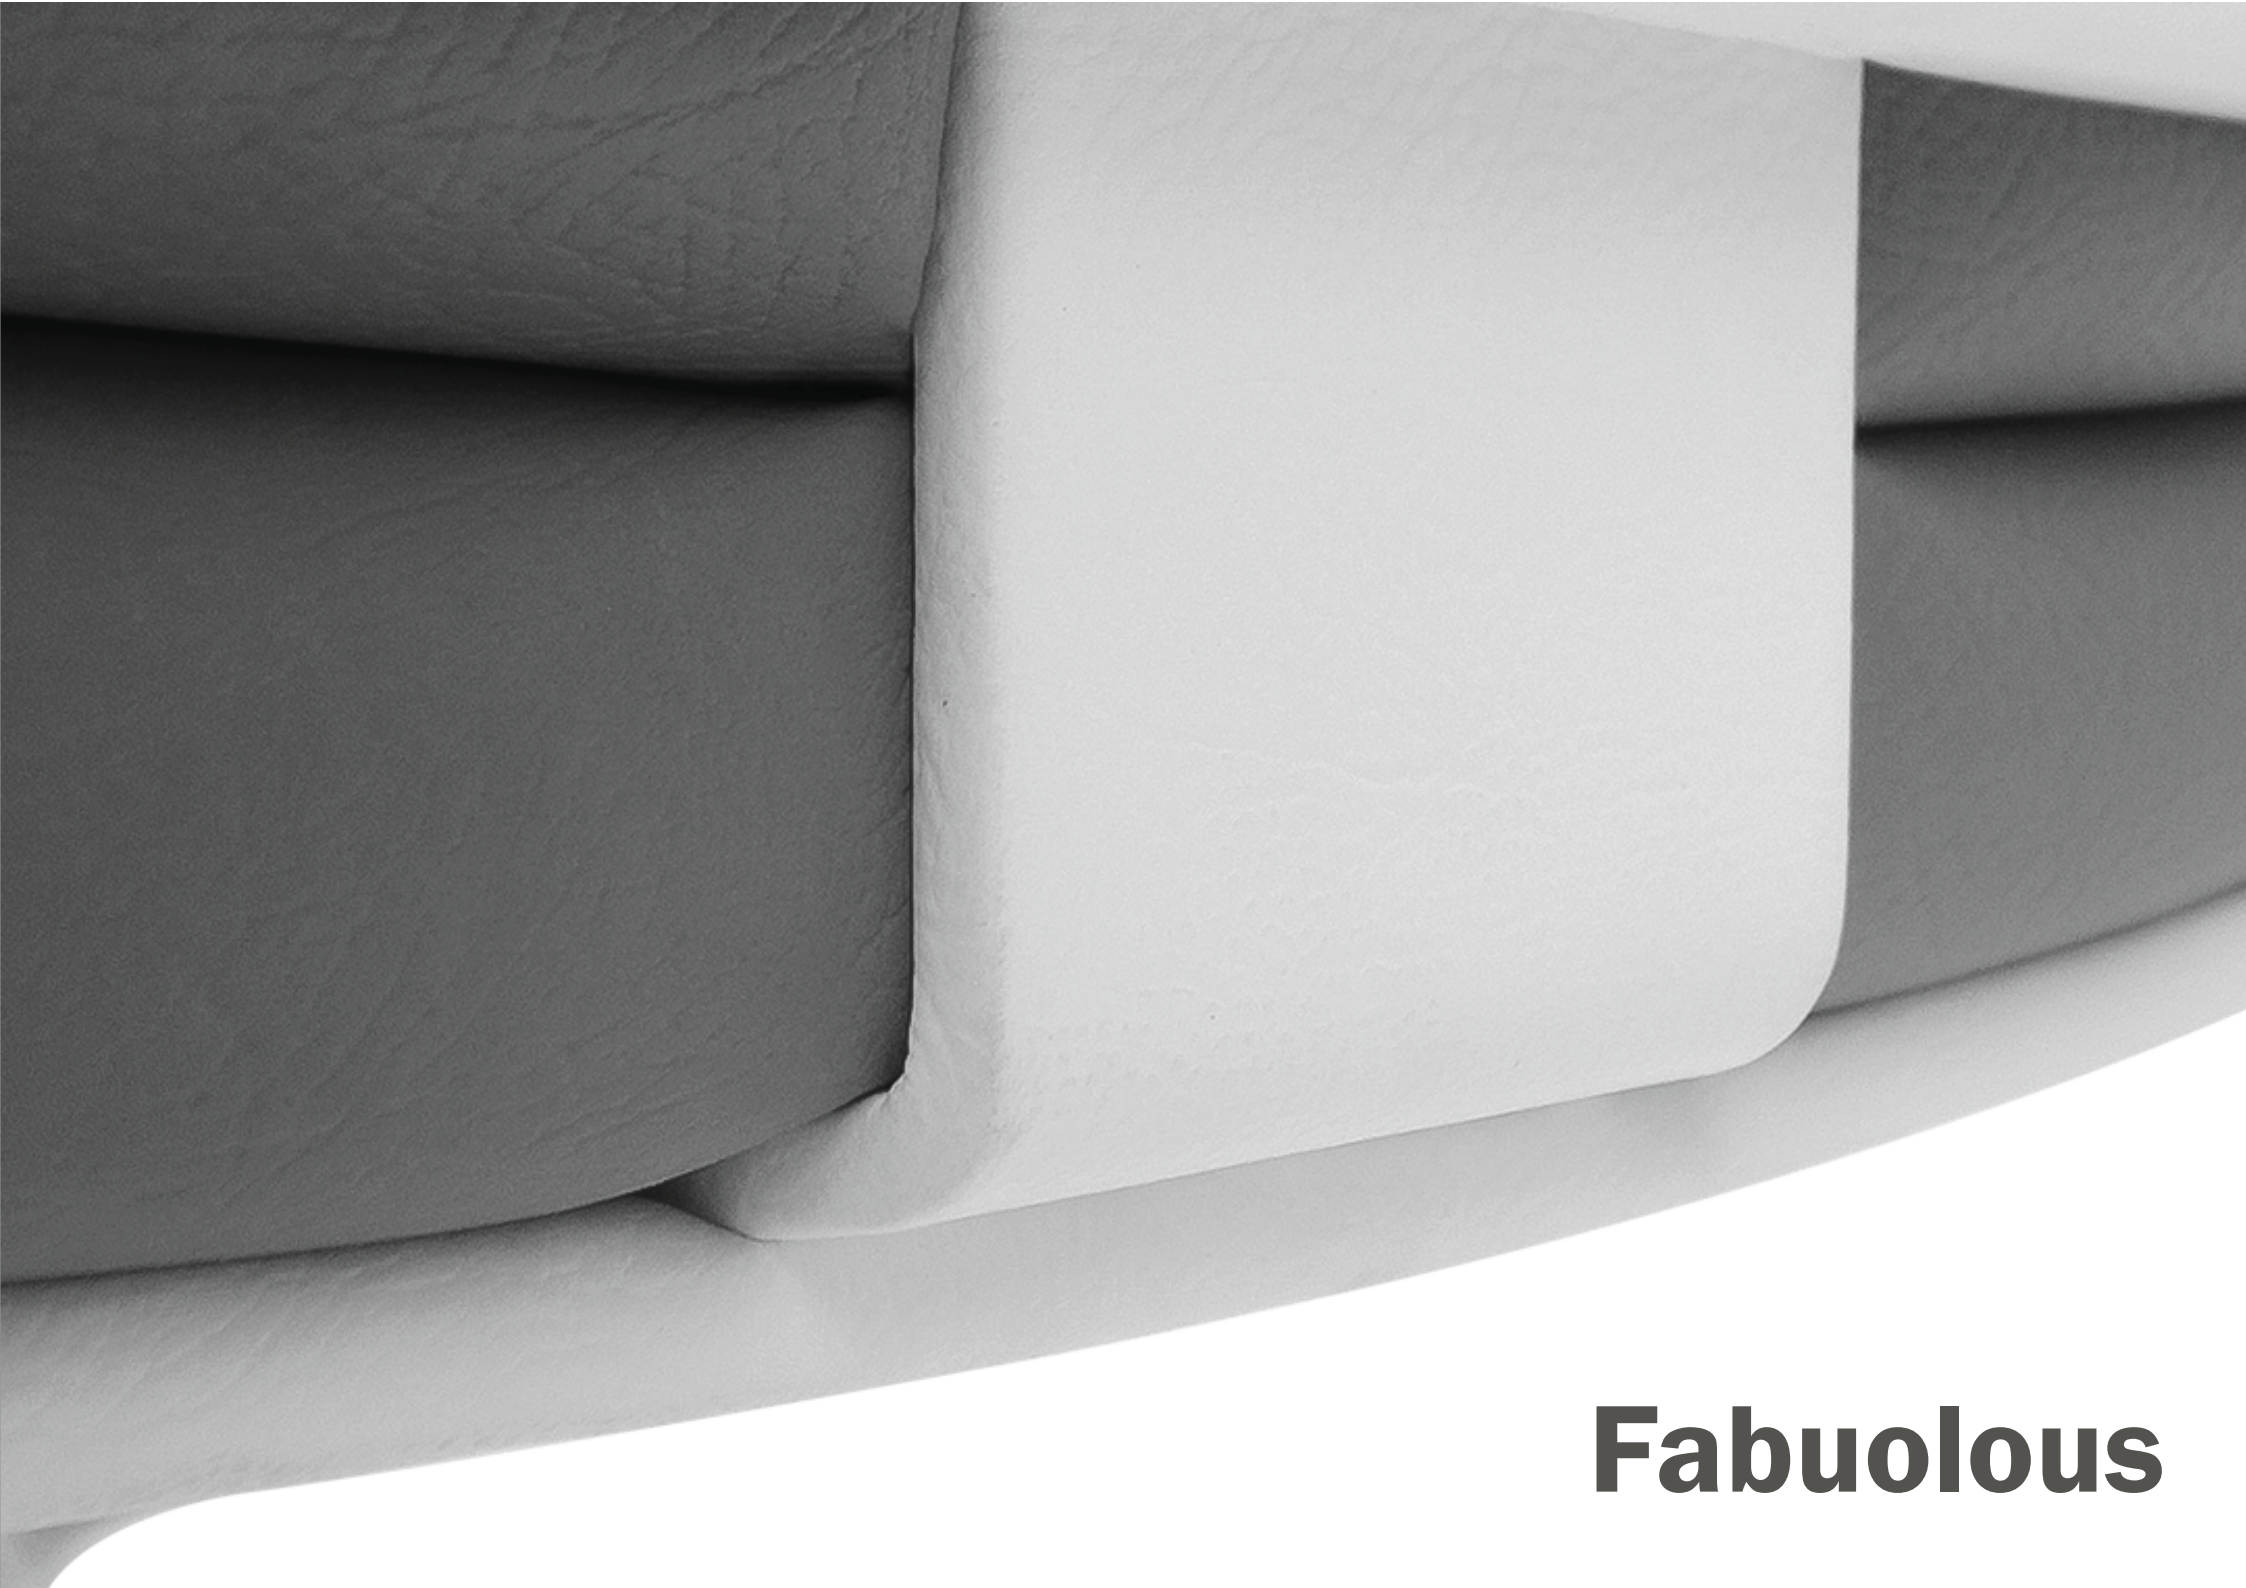

Domino

The chair is covered with PU leather or fabric, which is designed to be anti-dirt, anti-dust, and water-resistant
